

Section- VIII

Point-(r)

Academic Achievements

Environment Education.

In the field of environment Education our students always come with extraordinary innovative ideas like Compost from bio-degradable waste, rainwater harvesting, drip irrigation system different dustbins of different colors for bio-degradable non-biodegradable wastes. In these activities Parents suggestions are also welcomed as it improves overall performance of students.

Values are also imparted to students by fundraising activities for needy. Students donated things of

Basic requirement to the needy people. School Management Committee always take decisions in favour of student. There are lot of seminars as

1. Road Safety!

Students were told about the different safety measures on road with or with out any vehicle

2. Good Touch, Bad Touch".

Students were told that "you are the boss of your body." They were taught to differentiate between right touch and wrong touch.

3. Self-defence workshop:-

Students were told that self-defence training is a life-skill that helps girls to be more aware of their surroundings.

4. First Aid Training :

In this training students were told about the use of different equipments of first aid box.

5. Carrier counselling :

In this session students were informed about career options.
